COMMENTS

Pursuant to USDOT Rule 49 CFR 192.16, the Jasper Municipal Gas Utility is hereby giving notice to all Natural Gas customers, that the Jasper Municipal Gas Utility is **NOT** maintaining **BURIED** Natural Gas lines behind the meter set. Please be advised that:

1. If you, or your landlord, are not properly maintaining the line, it may be subject to the potential hazards of corrosion and leakage.
2. Buried gas piping should be:
 - a. Periodically inspected for leaks;
 - b. Periodically inspected for corrosion, if metallic; and
 - c. Repaired if any unsafe condition is discovered.
3. When excavating near buried gas piping, the piping should be located in advance and the excavating done by hand.
4. Plumbers and heating contractors can assist you in locating, inspecting, and repairing your buried gas piping.
5. The Jasper Municipal Gas Utility does **NOT** provide this service and is prohibited by insurance rules from working on customer owned piping.

The Jasper Municipal Gas Utility **DOES** maintain buried gas piping on the Utility side of the meter as a standard part of our maintenance procedures. If the line behind the meter goes into a building above ground and does not branch off to other areas underground (garages, BBQ grill, pool, etc), the above listed precautions do not apply to you. If you have a situation listed above, you should note the precautions listed, and contact your plumber for assistance.

If you are uncertain as to whether this notice applies to you, please call the Jasper Municipal Gas Utility at:

(812) 482-5252
