PART C CHECK LIST AND CONTRACTOR INFORMATION	
General Contractor	Phone
Electrical	Phone
Plumbing	Phone
Gas	Phone
Please include a SITE PLAN detailing the following items with your completed application: <input type="checkbox"/> North Arrow <input type="checkbox"/> Lot Size with Dimensions <input type="checkbox"/> Street Names <input type="checkbox"/> All Structures on Property <input type="checkbox"/> Rights-of-Ways <input type="checkbox"/> Location of Pool and Fence with Setback Distances from all Property Boundary Lines	

Owner's Certificate: <i>I certify that the information contained in this application and on any accompanying documents is true and correct.</i>
Applicant's Signature: X _____ Date: _____

FOR OFFICE USE ONLY		
Property Zoning	Permit Fee	Permit Number
Approval by: Administrator		Approval Date

COMPLETING YOUR POOL W/ FENCE PERMIT

Simple Steps to Ensure an Accurate Application

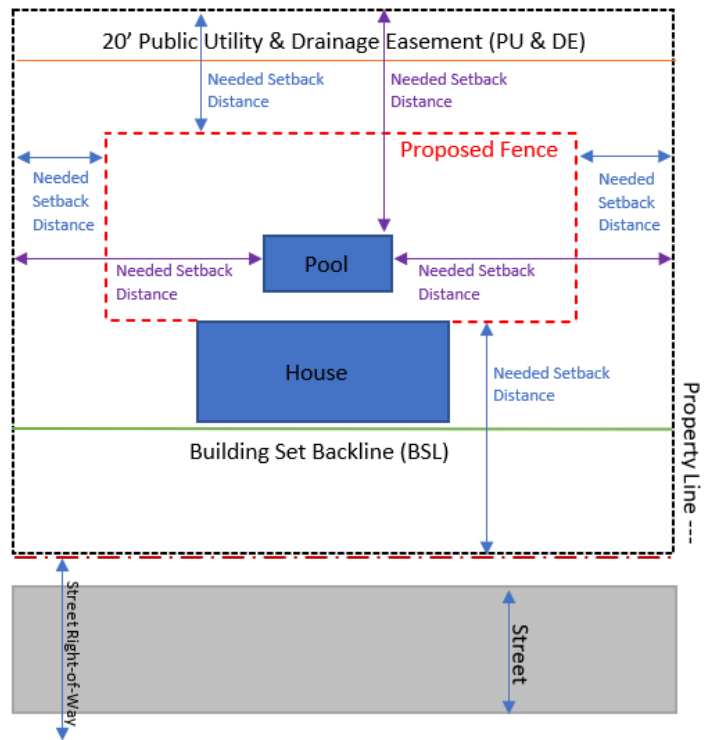

1. Fill Out the Permit with ALL Required Information.
2. Know Your Property Lines. If unsure, refer to your PLAT or DEED for your property. Understand the terms below and how they affect your property: easements, rights-of-way, setbacks.
3. Include Setback Measurements from ALL sides of the new fence to your property lines. See example drawing below. The minimum setback for fences is at least 2 feet from your property line. A pool is considered an accessory structure so know the minimum accessory structure setback requirements, too.
4. Call us, Community Development and Planning Department, with questions: 812.482.4255.

SITE PLAN INSTRUCTIONS

A site plan is a "scaled" drawing that shows an overhead view of your lot indicating existing and proposed structures like a new fence. Please include these requirements for your site plan:

- Lot size dimensions
- Footprint of proposed and existing structures
- Dimension distances between the proposed fence, the pool, and property line on ALL four sides
- Location and dimensions of easements and driveway
- Street names
- Arrow pointing in the north direction

POOL W/FENCE PERMIT GUIDE

Understanding These Terms:

Right-of-Way Line is the limit of publicly owned land encompassing a Public Way.

Building Setback Line (BSL) is the distance which a *building* or other structure is set back from a street or road as identified on the Plat of the Subdivision or outlined in the zoning ordinance.

Public Utility & Drainage Easement (PU & DE) allows utility companies or government agencies the right to use the area. The property owner must keep the land maintained; including making sure the easement retains the same slope for drainage. No structures of any type, such as a portable lawn shed, swing set, fence, or landscaping, even temporarily, are permitted in this area. *Easements can be located along any property line.*
